

Maden Technologies Awarded Federal Aviation Administration BPA

ARLINGTON, VA October 15, 2009—Maden Technologies announces our award of a Blanket Purchase Agreement (BPA), issued as a Master Ordering Agreement under the Federal Aviation Administration (FAA)'s Electronic FAA Accelerated and Simplified Tasks (eFAST) program. This is Maden Technologies' first award with the FAA, and we are excited at the opportunity to support this agency and its mission to provide the safest, most efficient aerospace system in the world. Supporting the FAA also enables us to continue expanding our world-class services into new areas of the Federal Government.

eFAST is a professional, technical, and support services acquisition vehicle specifically developed to support the FAA's mission, goals, and operations for 2010 and beyond. The initial period of performance for our eFAST contract runs through September 30, 2014, with two additional option years. Maden Technologies is eligible to support the following FAA functional areas:

- Air Transportation Support
- Business Administration and Management
- Engineering Services
- Computer/Information Systems Development
- Computer Systems Support
- Documentation and Training
- Maintenance and Repair

Founded in 1986, Maden Technologies is a leading-edge integrator of IT and cyber security solutions for the public and private sectors. We offer our clients a full suite of information assurance services, technology solutions, including identity and access management, operations and security services, network engineering, security protocols, and learning services.
