

Maden Technologies Now a Verified Service-Disabled Veteran-Owned Small Business (SDVOSB)

ARLINGTON, VA January 15, 2009—Maden Technologies, a leading integrator of outsourced information technology solutions, announces the verification of its SDVOSB status from the U.S. Department of Veteran Affairs Center for Veterans Enterprise (CVE). CVE's goal is to establish a strong veterans movement by branding our status as a verified veteran-owned small business.

Maden Technologies is proud to be a founding member of this historic moment in veterans small business ownership. We may now be found in the verified business database at www.VetBiz.gov.

We offer our clients a full suite of learning services, information assurance services, and technology solutions, including identity and access management, operations and security services, network engineering, and security protocols. Other related services encompass Internet, software, and telecommunications. Founded in 1986, Maden Technologies is a certified Service-Disabled Veteran-Owned Small Business that serves the Federal government, state and local governments, and private industry.

For more information about Maden Technologies' services, visit our website at www.madentech.com.
